

# Timberline®

North America's #1-Selling Shingles

Millions of families have found shelter and peace of mind under a Timberline® roof.

We protect what matters most™

# It's never just a roof. It's a promise, kept.

Providing a home means making a promise — of shelter, security, and stability. It says to the people who count on you, “You’re going to be safe, dry and warm under this roof.”

Choosing a genuine Timberline® roof is a great way to help keep that promise.

# It's a system, built to protect

A roof is so much more than shingles. It's layers of protection, working together to keep your home safe from wind, rain, snow, and even sun.

# It's the first name in architectural shingles

Literally. When GAF introduced Timberline® Shingles more than 50 years ago, we created a whole new category of roofing. Known as “laminated” or “architectural” shingles, Timberline® set a new standard for innovation and style. Today, a Timberline® roof protects millions of families, and it's the #1-selling shingle brand in North America.

# It's engineered to endure

A GAF roof is built tough. Proprietary GAF Dura Grip™ Adhesive seals each shingle tightly and reduces the risk of shingle blow-off. In fact, GAF Timberline® Shingles are warranted to withstand winds up to 209 km/h (130 mph).<sup>1</sup>

And now, any Timberline® Shingles that feature LayerLock™ Technology may qualify for the WindProven™ Limited Wind Warranty — the industry's first wind warranty with no maximum wind speed limitation when installed with the required combination of four qualifying GAF accessories.<sup>2</sup>

Timberline® Shingles have earned the highest roofing fire rating — UL Class A, Listed to ANSI/UL 790.

See how GAF LayerLock™ Technology mechanically fuses and strengthens the common bond between shingle layers.
